

We are raising money for Children's Church Structures to be built in Africa. There have been a lot churches going up in Africa but there is nothing for the kids. In Africa 41% of the population is 14yrs and under. We need to reach the next generation and spread the gospel to them as well. When a church is ready for a Children's Structure, BGMC will give them the money to build it. Each Children's Church Structure cost \$2,000.

Examples of what you can say when asking for a Pledge:

- I was wondering if you would be willing to pledge me in a Roll-A-Thon I am in. We are raising money to help build Children's Church Structures in Africa.
- Would you be interested in pledging me in a Roll-A-Thon I am in? I am raising money to help build a Children's Church Structure in Africa where kids don't yet have the opportunity to go to church and learn about Jesus.
